WAINUIOMATA INTERMEDIATE SCHOOL SCHOOL PROFILE

Mission Statement

We will develop, within a safe and inclusive environment, our academic potential, social skills and personal talents through practicing the values of Whānaungatanga, manaakitanga, kaitiakitanga and rangatiratanga.

Vision

Striving for Personal Excellence

Values

We will develop our communities of learning and learner agency through:

Whānaungatanga

This incorporates identity, relationships, integrity, diversity and belonging.

It is about being a family that accepts everyone's strengths and differences, and works together to improve.

In our school this means honouring who you are and creating a safe learning environment where we can all discover our strengths and weaknesses and take calculated risks to improve these.

Kaitiakitanga

This means "being a guardian". It usually applies to the environment and so is synonymous with sustainability. However, it can also be about the emotional environment or learning environment and how we all contribute to that.

In our school this means we are guardians, protectors and nurturers of all things, and the connections between them, so that they might fulfil their unique potential.

Rangatiratanga

This incorporates leadership, participating and contributing, relating to others, equity and managing self.

In our school this means the ability to lead, to guide, to keep people together. It is also the ability to lead others to their own rangatiratanga by nurturing them, empowering them and enhancing their own mana.

Manaakitanga

To feed and give emotional and all other kinds of support to others, without counting the quantities or costs. To build your mana through your actions towards others. Encompasses Service. Using your skills or talents to benefit others.

In our school this means showing genuine kindness, care and respect for the good of self, others and the environment. At our school we value and care for others through our words and actions. We nurture others and ourselves to build mana. Using our gifts and talents for the good of others.

In a sentence "**nga tanga**" or our school values are about students knowing where they are from, that they belong here, that we create an environment where we all feel safe to learn and grow and that we use our talents to give back to our community.

Our curriculum through the above values will be consistent with the NZC principles:
